

Aug. 13-19, 2004

The Terra spacecraft is operating nominally. All five instruments are in science mode.</P>

The late August delta-V maneuver to compensate for atmospheric drag on Terra is being rescheduled from August 26 to August 25, 2004, due to lack of TDRSS coverage resulting from high usage by higher priority users in the timeframe in which the maneuver was originally scheduled.

A MODIS lunar calibration roll maneuver is planned for September 3, 2004.

An independent technical review of the Terra Solid State Recorder recycle plan is scheduled for September 2, 2004.
